SAFETY GLASS LAW

“There to enact section 3313.643 of the Revised Code to require pupils and teachers to wear eye protection devices when participating in certain vocational, industrial arts and chemical-physical courses or laboratories.”

“Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That section 3313.643 every pupil and teacher in any public school participating in any of the following courses:

(A) Vocational or industrial arts shops or laboratories involving experience with:

1. Hot molten metals;
2. Milling, sawing, turning, shaping, cutting or stamping of any solid materials;
3. Heat treatment, tempering or kiln firing of any metal or other materials;
4. Gas or electric welding;
5. Repair or servicing of any vehicle;
6. Caustic or explosive materials;

(B) Chemical or combined chemical-physical laboratories involving caustic or explosive chemicals or hot liquids or solids; is required to wear industrial quality eye protective devices at all times while participating in such courses or laboratories. A board of education may furnish such devices for pupils and teachers, and shall furnish such equipment for all visitors to such classrooms or laboratories. A board of education may purchase such devices in large quantities and sell them at cost to pupils and teachers.

“Industrial quality eye protection devices,” as used in this section means devices meeting the standards of the American standard safety code for head, eye and respiratory protection, Z2 1-959, promulgated by the American Standards Association, incorporated.
